Commercial Residential Industrial

Curbside programs have been proven to be very successful in city and rural communities.

The convenience and flexibility of this system has created a more cleaner and attractive environment.

THE CART SYSTEM
has proven to be durable and easy to use. It holds three times as much as a normal trash can. The cart's large wheels make it easy for people of all ages to maneuvre and it completely eliminates the lifting of heavy cans.

Achieving balance in a complex world

Greenland Waste DISPOSAL LTD.

WASTE COLLECTION

Quick and easy to remember instructions regarding the automated refuse collection system.

This system uses the latest collection equipment available and provides maximum efficiency at minimum expense. We want to do the best possible job for you and would appreciate your cooperation.

In this pamphlet there is a drawing illustrating the locations for your container on collection day.

ALWAYS HAVE THE WHEELS OF THE CONTAINER FACING TOWARD THE CURB OR EDGE OF ROAD AS ILLUSTRATED IN THE DRAWING #1. When there is a snow bank built up along the curb, make sure the container is out further than the snow bank as illustrated in drawing #2. We ask that you refrain from parking on the street on collection day, however, if there are vehicles on the street, please place the container in the location illustrated in drawing #3 and #4.

If your house is on a street or avenue without a curb, please place the container on the road making sure the pickup truck can reach the container.

The container must be placed on the street or avenue that corresponds with your address. Example: 219-2nd Ave West. This corner house would place the container on the Avenue.

For your child's safety, do not allow them to play near the collection containers or vehicles.

Containers placed after 7 am will be collected the following week.

Following these instructions will assist us in making your community one of the cleanest in Saskatchewan.

If you require more information,
please call 1 (306) 763-3133 between 8 am & 5 pm,
Monday through Friday.

GENERAL GUIDELINES ON...

HOW TO USE YOUR CONTAINER:

1. Use your cart from now on to dispose of your bagged trash
2. Wheel out your cart with its lid closed. You must be able to close the lid without packing garbage in the cart too tightly, otherwise the excess weight will make emptying of the cart more difficult.
3. Place the cart roadside by 7:00 am on collection day, wheels facing towards the curb (illustration #1)
4. Return the emptied cart to your property before the end of the day.
5. Do not remove the cart from its assigned address.
6. Inform the town, village office or Greenland Waste Disposal of any damage, vandalism or theft of the cart. It is important to note the serial number stamped on the cart placed at your residence.

Thank you for your cooperation in making this new, cleaner and more efficient system of waste collection work for you.

Allowable Materials

PAPER FIBER MATERIALS – *Do Not Bag or Tie*

- Flattened corrugated cardboard and paperboard (i.e. empty cereal boxes, empty detergent boxes, empty tissue boxes)
- Newspapers, flyers, inserts, junk mail
- Magazines, catalogues, paperback books, hardcover books with covers and spine removed
- Telephone books
- Letter quality paper
- Brown paper bags, tissue roll cores, gift and packing paper, paper egg cartons
- Envelopes with or without windows
- Copier paper, computer printouts, NCR (no carbon required) paper

Sorry, we do not accept the following:

- Waxed, plasticized or food contaminated paper, cardboard, cups or plastic plates
- Soiled tissues, napkins and paper towels
- Confetti paper
- Heavily dyed or colored construction paper
- Styrofoam or other foam packing materials
- Household garbage, organics, hazardous or regulated waste
- Items other than those listed in the "Paper Fiber" section above

CONTAINERS – *Clean and Rinsed – Do Not Bag or Tie*

- Aluminum soft drink and beer cans (please rinse)
- Household tin cans (please rinse)
- Milk cartons and jugs (please rinse and remove caps)
- Juice cartons, juice boxes and all tetra-pak containers (please rinse)
- Plastic soft drink and water bottles (please remove caps)
- Place plastic grocery bags inside another bag and secure; includes clean plastic food wrap and clean plastic product wrap
- Household plastic containers and bottles – with a # through # on the bottom (a container with no arrows, or a container with arrows but without a number inside cannot be accepted).

Sorry, we do not accept the following:

- No glass cups, dishes, ashtrays, window glass, mirrors, ceramics, light bulbs or crystal
- Any and all types of styrofoam packaging or containers
- Contaminated plastic food or product wrap
- Hazardous chemical containers (e.g. motor oil containers)
- Auto parts, batteries
- Any scrap metals other than household tin and aluminum cans
- Propane tanks, gasoline or any type of fuel containers
- Wire or plastic clothes hangers
- Clear plastic clam shell containers without the recycling arrows
- Plastic toys or Tupperware
- Plastic pipe
- Outdoor lawn furniture
- Items other than those listed in "Containers" section abo

You can help keep the cost of collecting, sorting and processing down by recycling only those types of plastic that can be accepted in this program – must have recycling arrows on it and a number inside – # through #. The following is a list of the accepte grades of plastics and their common household uses:

Plastic #1: Polyethylene Terephthalate (PET, PETE)

Common uses: soft drink bottles, cooking oil bottles, peanut butter jars. This is the most widely recycled grade of plastic. Remember to please rinse and remove all caps.

Plastic #2: High Density Polyethylene (HDPE)

Common uses: milk jugs, detergent bottles, windshield washer jugs. Remember to please rinse and remove all caps.

Plastic #3: Polyvinyl Chloride (PVC)

Common uses: hard plastic water bottles, salad dressing and liquid detergent containers. Please remember to rinse and remove all caps. Please note that plastic pipes, outdoor furniture and other items may be PVC but are not acceptable.

Plastic #4: Low Density Polyethylene (LDPE)

Common uses: food storage containers, dry cleaning bags, produce bags, trash can liners. Please place inside another bag and tie. No contaminated material allowed.

Plastic #5: Polypropylene (PP)

Common uses: containers for yogurt, margarine and takeout meals, ketchup bottles, syrup bottles. Remember to please rinse and remove all caps.

Plastic #6: Polystyrene (PS)

Common uses: clamshell takeout containers, yogurt containers, margarine containers. Remember to please rinse.

Plastic #7: Other. It can also be a mixture of the above polymers.

Common uses: 5 gallon water jugs, some citrus juice bottles, some condiment bottles. Remember to please rinse and remove all caps.
